Dear Hunter:

This letter is to commend and thank you for your dedicated and tireless work in support of the design, construction and start-up of the Fincastle Wastewater Treatment Plant.

You demonstrated an extraordinary commitment to ensure the success of this project. You accepted and maintained "ownership" of this project and established a very high standard as a professional and personal challenge, which you met. In so doing, you earned the respect and confidence of the County project team, Town officials and of the Western Virginia Water Authority. The confidence you engendered among Town and Authority officials contributed greatly to the Town Council's action to waive the County's contractual obligation to post a treatment performance bond, saving the County significant cost and protracted potential liability.

Congratulations on a successful project and a job very well done. Without reservation, we would be pleased to recommend your services for similar work to others. Please contact us when we may do so.

Sincerely,

Gerald A. Burgess
County Administrator
